Personalised Accounting Training

Accounting system set-up, migration and training that leaves your own team confident with the books.

What we do

- QuickBooks Online and SAP set-up
- Migration from desktop or server-based systems
- Chart of accounts design
- Hands-on training for finance staff
- Financial-management capacity building

What you receive

- A working, configured accounting system
- A chart of accounts that fits your reporting
- Step-by-step guides for your team
- Trained staff who can run the month
- Follow-up support after go-live

How it works

Assess
Review your current system, data and team skills.

Configure
Set up or migrate the system and chart of accounts.

Train
Train your team on the tasks they run each month.

Support
Follow-up help as your team takes over.

Who it's for

- **Businesses**
- **Hotels and lodges**
- **NGOs**

Why it matters

Skills that stay in-house compound over time: your team keeps better books long after the training ends.

INDICATIVE FEE

Accounting systems & personalised training

Quoted for each assignment

Final fee confirmed in a written proposal.
